

RASUL ABDULLAYEV

Address : Friedrich-Ebert-Straße 36 Cottbus, Germany

(Willing to relocate)

Phone : +4915155620695

Email : rasul2abdullayev@gmail.com

Linkedin : www.linkedin.com/in/rasul-abdullayev-6519211a2

SUMMARY

Cybersecurity specialist with hands-on experience in security monitoring, threat detection, and incident analysis. Certified Blue Team Level 1 (BTL1) professional with practical skills in identifying and analyzing security threats across Windows and Linux environments. Experienced in working with SIEM tools, log analysis, and applying the MITRE ATT&CK framework to detect and investigate malicious activity.

WORK EXPERIENCE

IT System Administrator Intern

Caspian Engineering Solutions - Baku, Azerbaijan

Jan 2023 - Jun 2023

- Assisted in the administration and maintenance of Windows and Linux servers to ensure stable system performance.
- Provided technical support to users by troubleshooting hardware, software, and network-related issues.
- Collaborated with senior administrators to improve infrastructure reliability and overall IT service delivery.

CERTIFICATES

Blue Team Level 1 (BTL1) — Security Blue Team (Jan 2026)

EDUCATION

Master of Science in Cyber Security

Brandenburg Technische Universität

Oct 2023 - Mar 2027

Bachelor of Science in System Engineering

Azerbaijan Oil and Industry University

Sep 2019 - Jun 2023

PROJECTS

Study Project : Tor Network Performance Optimization via Machine Learning

Brandenburg Technische Universität

Mar 2025 - Aug 2025

- Conducted a risk assessment on traditional routing vs ML-driven paths to ensure no increase in susceptibility to website fingerprinting or traffic analysis attacks.
- Utilized Machine Learning (CNN/ResNet) to automate the detection of inefficient or potentially compromised routing paths, improving both reliability and security visibility.
- Reduced average download times by 20-25% compared to standard Tor routing
- Evaluated the security posture of the Tor network by analyzing how circuit optimization impacts user anonymity.

SKILLS

Network Security:

Firewalls, VPNs, IDS/IPS, VLANs, Traffic monitoring (Wireshark, Nmap)

System Administration:

Windows Server, Linux (Ubuntu/CentOS), Active Directory

Security Monitoring:

SIEM tools (Splunk, Wazuh), alert investigation, analysis

Incident Response:

Log analysis, alert triage, malware identification, case documentation

Threat Detection:

MITRE ATT&CK mapping, IOC analysis, phishing investigation

Frameworks :

NIST CSF, ISO 27001, BSI IT-Grundschutz, GDPR

Programming/Scripting:

Python, Bash, PowerShell, SQL

Languages:

Azerbaijani - Mother tongue, English - C1, German - B1, Turkish - C1, Russian - A1
